CERTIFICATE OF CONFORMANCE

October 7, 2015

RE: Mission Rubber Company Products

This is to certify that all products manufactured by Mission Rubber Company LLC meet or exceed all material, workmanship and testing requirements of the applicable industry and government standards where compliances are in accordance to ASTM Rubber Couplings, IAPMO and Cast Iron Standards.

As an official representative for Mission Rubber Company, I certify that where physical and/or chemical test requirements are a part of the specifications, Mission Rubber Company has performed these tests to substantiate this certification.

I certify that all products manufactured by Mission Rubber Company are molded in the United States and are fully compliant with the "Buy American" requirement of §1605 of the American Recovery and Reinvestment Act of 2009. In addition, all rubber and stainless steel raw materials components are also sourced from suppliers in the United States. All stainless steel components are fully compliant with the "use of American iron & steel" (AIS) requirements as stipulated in section H.R. 3547 – Consolidated Appropriations Act, 2014.
